

# Title I Teacher Survey

Dear Teachers,

As part of our program improvement for Title I, we will be having an annual review meeting with the Title I staff and administration to reflect on our 2002/2003 program. This meeting is designed to help all of us reevaluate the program and implement changes that will help our students feel successful as learners. Please take some time to fill out the survey below and return it to Missy or Paula by Friday. (Remember, Title I follows strict state and federal guidelines that cannot be changed. Please make sure your concerns address things we CAN change in order to benefit the children in our school.)

What do you feel are strengths of our Title I program in **reading**?
